

JOB ANNOUNCEMENT

CHIEF MEDICAL OFFICER

Westside Family Health Center is a nonprofit community clinic dedicated to providing high quality, low cost healthcare to over 7,500 women, men and children. Founded in 1974, WFHC is now a \$3 million agency with 50+ employees and volunteers. Reporting directly to the President/CEO, the Chief Medical Officer is an integral member of the Leadership Team and oversees the clinical/medical aspects of our clinical programs (reproductive health, family practice, prenatal and pediatrics). Key responsibilities include development and oversight of medical programs, policies and procedures for the patient service component, supervising the medical management process, reviewing and evaluating the quality assurance and peer review process, developing, coordinating (as part of a team) and implementing clinical services and programs and providing leadership to the clinical staff. Requirements: License to practice medicine in the State of California. Board certified in Family Practice or Internal Medicine (pediatrics experience required). 3 to 5 years experience in public or private practice with community clinic experience a plus. Must possess some understanding of general clinical operations in a non-profit setting. Exceptional leadership, communication and interpersonal skills are necessary to become a member of a highly-focused and dedicated team. Excellent compensation and benefit package including health and life insurance, generous vacation policy and 401(k). Please email a cover letter and CV/resume to: lobby@wfhcenter.org and indicate CMO in the subject heading.
